1. The importer must apply in writing to the CEO Biosecurity Authority of Fiji, P.O. Box 18360, Suva, for an Import Permit to import dairy products into Fiji.
2. The consignment must be accompanied by the following original documents:
 - 2.1. Import Permit No: **124PR(D)/20**
 - 2.2. **Manufacturer's/Processor's Declaration**
 - 2.3. **Australian Government Department of Agriculture Veterinary Zoo-sanitary Export Certificate**
 - 2.4. Original Veterinary Certificates, issued by an official Australian Government Department of Agriculture veterinarian certifying to all the importation requirements and sanitary conditions listed below.
3. **IMPORT PERMIT**
 - 3.1. This Import Permit is for the importation of **Dairy and Dairy products only of Australian origin.**

- 3.2. The original Import Permit must be sighted, and stamped and certified as sighted by the Biosecurity Officer at the Port of Entry on the consignment's entry/arrival.
- 3.3. After the verification of the original import permit on the first entry, copies may be used for subsequent consignment until the final entry.
- 3.4. The original Import Permit must be surrendered to the Biosecurity Authority of Fiji at the Border on the final consignment or on the **03 december 2020**, whichever is earlier.

4. MANUFACTURER'S DECLARATION

- 4.1. The Manufacturer's Declaration that the raw milk from which the product was derived has been processed at the core pasteurization temperature of no less than 72°C (Specifying actual temperature and duration) for a period no less than 15 seconds or its equivalent.

5. VETERINARY CERTIFICATION

Veterinary Health Certificate issued by an Australian Government Department of Agriculture Veterinarian certifying that:

- 5.1. Australian animals from which raw materials were sourced were free from clinical disease. Foot and Mouth Disease, Rinderpest and Bovine Spongiform Encephalopathy do not exist in Australia. This should be in line with Australia's extensive surveillance measures in place through Animal Health Australia (AHA) and protocols for the containment and/or eradication of disease outbreaks.
- 5.2. The milk used in the production of these dairy products was derived from animals of Australian and New Zealand origin only.
- 5.3. Dairy of New Zealand origin has met all the Australian importing requirement.
- 5.4. The dairy products are produced at the Australian Government Department of Agriculture and Water Resources export registered processing plants located in Australia.
- 5.5 The dairy products are fit for human consumption.

6. GENERAL CONDITIONS

- 6.1 The dairy products are exported in sealed containers and have not come into contact with animal products of any other country.

END OF PERMIT CONDITIONS
